Hiring Manager  
Fedex

Dear Hiring Manager,

I am writing to express my interest in the position of Data Engineer at Fedex, as advertised. With a proven track record in driving the development and management of data product development roadmaps aligned with business and data strategy, I am confident in my ability to contribute effectively to your team.

In my previous roles, I have demonstrated expertise in planning and coordinating the development of data assets, executing product development within complex categories, and driving collaboration across cross-functional teams. My experience includes optimizing data engineering solutions on Microsoft Azure, leveraging services such as Azure Databricks, Azure Data Factory, and Azure SQL Database to deliver tangible results. For example, I developed and maintained data pipelines using Azure services, resulting in a 40% increase in data processing speed, and automated hourly status reports, saving 10 man-hours per week.

Additionally, I have hands-on experience with Azure Kubernetes Services, Event Hubs, and other related technologies, enabling me to implement streaming ingestions effectively. My proficiency in product roadmap development, data-driven strategy decisions, and stakeholder management further strengthens my ability to drive impactful outcomes in dynamic environments.

I am particularly drawn to the opportunity at Fedex because of your commitment to innovation and excellence in data-driven decision-making. I am eager to contribute my skills and expertise to help advance your data engineering initiatives and achieve strategic objectives.

Thank you for considering my application. I am excited about the possibility of joining your team and contributing to Fedex's continued success. I am available at your earliest convenience for an interview and can be reached at 312-459-2008 or via email at shouvik19@gmail.com.

Sincerely,

Shouvik Sharma
